

January 2017

To clean all mobile office and Vehicle Desk solutions from Hopkins Medical Products, please follow the recommended cleaning process below:

For all products with a grey or black MDF finish, we recommend spraying or wiping down with [Cavicide](#) or bleach. Do not let air dry, spray and wipe down the plastic surfaces and storage area as well as the desk surface.

For all products in Baltic Birch or Bordeaux Wood Finish, we recommend [Sanizide Plus](#), or [Cavicide](#) products. Do not let air dry, spray and wipe down the plastic surfaces and storage area as well as the desk surface. For convenience, [Sanizide Plus Wipes](#) can also be used.
